## Student Insurance: Athletics

It is the policy of the Board of Directors of the Woodbury Central Community School that all students participating in school athletics be covered by insurance (health & accident insurance). Parents may purchase insurance from the programs selected by the school district or provide proof that the student is adequately insured by another policy. (Code No. 504.9)

Students playing football and carrying school insurance with the First Agency Insurance Company carry the football insurance plan. Regular school insurance is not a catch all insurance plan and in most cases picks up only the deductible for other insurance plans. Please read your insurance policy carefully to make sure you have adequate protection. It is also a good practice to discuss the merits of which plans or plan you might be considering with your personal insurance agent.
